

Law Day is May 1.

The 2022 Law Day theme — ***Toward a More Perfect Union: The Constitution in Times of Change*** — reminds all of us that the Constitution is a dynamic document, as it not only outlines a blueprint for government, but also delegates power, articulates rights, and offers mechanisms for change.

The framers of the Constitution realized that change and reform would be necessary over time, and in Article V they spelled out several processes for amending it. Since the adoption of the Bill of Rights, there have only been 17 additional Amendments to the Constitution.

However, change also occurs when the actions and voices of ordinary citizens fighting through the courts have helped to ensure that the Constitution lives up to its fullest potential — providing equal rights and justice for all.

Join us over the next five days as we dig a little deeper into the historic background, civic principles, and rights and protections associated with a few examples of those who have stood up and helped make changes necessary to move our nation toward a more perfect union.
