

# Make a SPLASH READ!

## Explaining "how to"

Search your newspaper for directions on how to do or make something. Often newspapers publish recipes that explain what to do first, second and third. Use the directions that you find as a model.

Choose and describe how to carry out a task you enjoy and/or know how to do that involves water, such as swimming, building a sand castle, surfing, watering plants or boiling an egg.

## Visit Your Library!

Find books and information online that give directions on how to do or make something that interests you.
