

Make a SPLASH

READ!

Search for Compounds

Many compound words include “water” or relate to water. Examples are seagulls, lifeguard, watermelon, freshwater, waterproof and wetlands.

Search your newspaper for compound words that include or refer to water and/or photos or illustrations for the listed words.

Look for other compound words. Make up new words by mixing up parts of the compound words.

Visit Your Library!

Use research tools to add to your list of compound words. How many additional compound words do you find that relate to water?
